PROFILE

Results-driven Web Developer who develops cutting-edge websites and web applications. Expertise in HTML, CSS, JavaScript, React, Node.js, and other web technologies. Skilled at developing custom solutions to fit client needs while delivering high-quality products on time and under budget.

EMPLOYMENT HISTORY

Freelance Blockchain Web Developer, Saratoga Springs

September 2021

- Spearheaded the creation of cutting-edge blockchain-focused websites and decentralized applications (DApps) for a portfolio of 15 clients, delivering innovative solutions that leveraged the power of blockchain technology.
- Skillfully crafted multiple smart contracts using the Solidity programming language, ensuring robust and secure execution of blockchain transactions and operations.
- Utilized a versatile tech stack, including React, Next.js, SCSS, CSS, and Vanilla JavaScript, to create dynamic and responsive user interfaces that provided seamless user experiences.
- Actively engaged with clients through video calls and chat platforms, facilitating clear and effective communication to gather project requirements, provide updates, and address any concerns, resulting in high client satisfaction.
- Collaborated closely with UI designers proficient in Figma and Adobe XD, translating design concepts into functional, visually appealing, and user-friendly interfaces that exceeded client expectations.
